Career Objective

Ambitious Front-End Developer seeking to work in a creative environment where I can leverage my skills in Angular and TypeScript to build interactive and user-friendly web applications. I aim to contribute to the development of innovative digital experiences and enhance my technical expertise within an Agile-driven environment.

Technical Skills

- Programming Languages: JavaScript (ES6+), TypeScript
- Front-End Technologies: HTML5, CSS3, SCSS, Bootstrap 5, Tailwind CSS
- Frameworks & Libraries: Angular (v8+), jQuery
- Version Control: Git, GitHub
- Methodologies: Agile, Responsive Design

Projects

Weather App

Project Link: https://romanyanter.github.io/weather-App/

A weather application that displays real-time weather information using the News API with an interactive and modern design.

CRUD Application

Project Link: https://romanyanter.github.io/ProjectCRUD/

A full CRUD application that allows users to create, read, update, and delete data using Angular and TypeScript.

Frechcart (E-commerce)

Project Link: https://romanyanter.github.io/Ecommerce/

A mini e-commerce website where users can browse products and add them to the cart using Angular.
